Publication Guidelines and Regulations

- The journal publishes the sober and original articles which were not published before in Sciences, politics and security fields.
- The articles written in Kurdish, Arabic and English are accepted and the researcher affords the process of evaluation as far as language is concerned.
- The article must not be drawn from an M.A or Ph. D. dissertation of the researcher or supervisor was discussed or drawn from a book published before.
- Researchers must commit to the basics of the scientific research.
- The researcher is to pay 150,000 Iraqi dinars as the fees of publishing and evaluating the article scientifically.
- The article should not contain more than 8000.
- Ariel is to be the main font used for the Kurdish and Arabic articles and the size is to be 16 for the head titles, 14 for the text and 12 for the margins with one single space between the lines.
- Times New Roman is to be the main font for the English articles and the size is to be 14 for the head titles, 12 for the text and 10 for the margins with one single space between the lines.
- Pages are numbered at the top of the paper in the middle.
- The margins are written in each page separately and the article is to contain a list of the accredited sources.
- In Kurdish and Arabic articles, the comma is to be used as a separator in the margins and the bibliographic information arrangement should be as in the following: author's name, source title, edition number, place of publication and publication house, year of publication, along with relying on abbreviations for the titles, number of edition and the volumes and parts. In English articles, documentation should be that of Harvard style.
- Along with articles, three abstracts in Kurdish, Arabic and English are to be submitted with not more than 200 words for each.
- Three printed copies are submitted to the journal editorial board in addition to an electronic copy on a CD, Or send to this email: (information@centerfs.org).
- The journal is not committed to return the articles back nor the fees in case they are not published.
- The articles published in the journal of political and security studies are considered a property of the journal and it is not possible to republish them unless there is a written acceptance by the editorial board.

Center for Future Studies

A non-governmental center established to prepare scientific studies for the public interest

Aims and objectives:

- 1) To promote expertise and support research activities in politics and international relations with a particular focus on the future of strategy and public and foreign policies.
- 2) To contribute to the development and improvement of the philosophy of scientific research in Iraqi Kurdistan.
- 3) To offer the governing institutions of the Kurdistan Regional Government (KRG) professional and expert advice.
- 4) To offer professional and expert advice to private sector and to non-governmental organizations operating in Iraqi Kurdistan.
- 5) To contribute to the improvement of learning program in the field of the center's expertise.
- 6) To hold scientific conferences and seminars on current and future domestic and international political and strategic issues.
- 7) To coordinate with governmental and non-governmental centers for scientific research in and outside Iraqi Kurdistan with the aim of exchanging ideas and expertise.
- 8) To follow up and measure directions of, and trends in, the public opinion in Iraqi Kurdistan, particularly on those issues that are crucial to the stability and prosperity of the region.
- 9) To train and prepare researchers in the center's area of expertise.
- 10) To address the region's strategic issues that has not been yet approached from an academic and scientific point of view.

Activities :

- 1) To carry out and publish scientific research.
- 2) To hold regular conferences, seminars and talks on current and future domestic, regional, and international political and security issues.
- 3) In addition to policy papers, analytical reports, and books, the center publishes a scientific journal that mainly deals with the future of domestic, regional, and international strategic and security issues.
- 4) To conduct interviews and interact with public and private media.
- 5) To translate and publish books and journal articles from English (and other foreign languages) to Arabic and Kurdish on the topics of the center's expertise.
- 6) To carry out opinion polls on various domestic political issues in Iraqi Kurdistan.
- 7) To gather data and publish analysis on various issues connected with public policy in Iraqi Kurdistan
